矿产资源储量SD法

暨国际矿业标准及合格人培训辅导班

根据国际矿业发展新形势的需求，响应国家“一带一路”号召，取得中国矿业投资的国际话语权，改变中国矿业投资及评估标准（储量、矿权）在国际上的地位，全面了解“矿产储量国际报告标准委员会（CRIRSCO）、亚太资源委员会（APRC）”评估标准体系，加快中国矿业评估标准（GB）国际化进程，推广中国现行技术标准（GB）中首先被国际认可的中国矿产资源SD储量计算方法，同时引进国际储量报告、评估标准（JORC标准、CIM标准、VALMIN标准），提高中国矿业各企事业单位“走出去”的国际化 and 专业化水平，建立一批具有国际签字权的地质储量、采矿、选矿、市场、经济和管理的国际专家队伍，由中国长期研究储量标准的专业机构北京恩地（集团）公司主办，AMA 和 MICA 协办的“矿产资源储量SD法暨国际矿业标准及合格人要求培训辅导班”将在国内（北京、云南等）及海外（香港、新加坡、澳大利亚、马来西亚等）举办，现将有关事项通知如下：

SD Method for Mineral Resources and Reserves and International Standards Training and Qualified Professional Requirements

Following the new global development trend in the mining industry, as inspired by the Chinese Government's "One Belt and One road initiative", aims at improving the quality of overseas Chinese mining investments through enhancing the Chinese mining industry's position in the global mining industry, understanding of current international valuation standards/systems and promoting the global recognition of Chinese mining valuation and technical standard (GB)

Together with Australian Mining Association (AMA) and Mineral Industry Consultant Association (MICA), the Beijing SD group which is the leading mining service provider in mineral resources and reserves appraising in China, will hold mineral resources and reserves and international standards training in the following cities: Beijing, Kunming, Hong Kong, Singapore, Sydney, Kuala Lumpur, with the terms and conditions set below.

This training will warrant a comprehensive understanding of mineral reserve/resource standards, such as CRIRSCO and APRC standard systems, and the first internationally recognized SD mineral resources & reserves calculation method, and some commonly accepted international reserves & resource standards (JORC, CIM and VALMIN). We will also assist Chinese mining professionals in understanding the qualifications and proficiency required for global recognition.
